

## **Acculturation (ACQ) Section (June 2002) Sample Person Questionnaire**

### **Description**

The Acculturation section (prefix ACQ) provides personal interview data on cultural identity and language/media exposure.

### **Eligible Sample**

Non-Hispanics ages 12 and older are asked only one question in this section: language spoken at home (ACQ010).

Hispanics ages 12 and older are asked questions ACQ020 – ACQ080. These questions are about language use and country of birth of parents.

### **Analytic Notes**

ACQ010 (language spoken at home) had too few responses in the categories “other than English or Spanish.” The recoded data is in variables ACD010A, ACD010B, and ACD010C.

ACQ040 (What language(s) do you usually speak at home? Would you say ...) is recoded to ACD040.

ACQ070 and ACQ080 (Country of Birth of father and mother, respectively) are recoded in ACD070 AND ACD080.
